

Tax & Accounting

## *Partner Alliance Program*

Improve and Protect  
Your Clients' Businesses

Changes in your clients' businesses have a direct impact on their sales and use tax obligations. Failure to comply with ever-changing state and local tax changes increases sales and use tax audit exposure. Simplify your clients' daily workflow and streamline their tax automation and compliance with the authority in tax that has a proven track record of more than 100 years of tax experience.

Our comprehensive sales tax rate and taxability tables have been **selected by the IRS for 12 years in a row**, helping millions of Americans prepare their tax returns. Help your clients focus on more valuable activities, by working with an integration partner that will protect their business investment, ensure compliance, mitigate risk and manage complex issues with proven end-to-end sales and use tax solutions.

### **Leave the Sales and Use Tax to Us**

Wolters Kluwer is the leading global provider of tax and accounting software, audit information, corporate tax calculation tools and services, serving customers in more than 150 countries and operations in over 40 countries.

We support more than 40 million tax returns and over 210,000 tax and accounting firms worldwide. Our employees and leaders have been named in Accounting Today's Top 40 under 40.

### *Skilled Implementation and Customization Experts*

We share in your strong commitment to your client's growth. Wolters Kluwer delivers a total sales and use tax solution: rates, calculation and compliance; our industry expertise can help mitigate your clients' business risks.

### *Dedicated Strategic Solution Team*

Whether you're focused on a specific region or provide assistance to companies on a national level, the Wolters Kluwer sales team will help you close business and solidify long-lasting, profitable client relationships.

### *Industries We Serve*

- Communications
- Energy
- Retail
- Manufacturing
- Construction
- Information Services
- Wholesale Trade
- Transportation and Warehousing

### *Proven Methodology*

Provide your clients with a higher return on their technology investment. Our on-premise, cloud and native database solutions integrate easily with your clients' accounting, ERP, e-commerce and point of sale systems to keep their business in compliance with sales tax rules.

### *Margin Revenue Sharing*

Earn a recurring revenue stream via margin rewards and renewal annuities. This will provide you with the ability to offer your clients a total solution — while building their revenue.

**Wolters Kluwer is committed to serving our partners from inception to implementation and beyond, by facilitating an open and collaborative way in which your clients want — and need — to work today.**
